OBJECTIVES

Self-motivated person with analytical thinking and problem-solving skills. Always ready to step out of the comfort zone to take complex challenges and learn new technologies.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C, C++, Java, Python

Frontend: React.js, Next.js, Redux Toolkit (RTK), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL, MySQL

ORM: Prisma ORM

APIs & Auth: RESTful APIs, JWT, Better Auth, Firebase Authentication

Version Control: Git, GitHub, GitLab

Tools: Docker, Postman, VS Code

Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, API Design, Role-Based Access Control (RBAC), Protected Routes, Single Page Applications (SPA), TanStack Query, CSR, SSR, SSG, ISR, MVC Architecture, Modular Architecture

PROFESSIONAL EXPERIENCE

Software Engineer

Feb 2026 – Present

Spectrum Software & Consulting (Pvt.) Ltd

- Contributed to the development and maintenance of an enterprise-grade fintech platform serving a leading commercial bank.
- Worked with containerized development and deployment environments using Docker, gaining hands-on experience with modern software delivery workflows.
- Assisted in developing and maintaining frontend and backend modules within a large-scale production application.
- Collaborated with PostgreSQL database development, including writing and optimizing complex SQL queries, Common Table Expressions (CTEs), and business-critical data processing logic.
- Participated in database version control and migration management using Flyway.
- Worked with GitLab-based development workflows, including branch management, code integration, and merge conflict resolution.
- Contributed to real-time notification and communication features using Socket.IO.
- Collaborated closely with senior engineers to understand production-grade software architecture, development standards, and deployment practices.
- Collaborated within an Agile team to develop and maintain business-critical fintech solutions for production environments.

PROBLEM SOLVING EXPERIENCE

- Codeforces Highest **Rating 1196** — [Profile Link](#)
- LeetCode **70+** problem solve and SQL query — [Profile Link](#)
- Achieved **2*** title on Codechef — [Profile Link](#)
- AtCoder Highest **Rating 353** — [Profile Link](#)
- Solved **750+** algorithmic problems on Codeforces, CodeChef, and AtCoder.
- ICPC Asia Dhaka Regional Onsite Contest 2020 — **Rank 101**.

PROJECTS

Shopnity – Full Stack E-Commerce Platform

[Live Demo](#) — [Client Repo](#) — [Server Repo](#)

- Built a full stack e-commerce platform with role-based access for visitors, buyers, and admins.
- Implemented product categorization, pagination, and dynamic product detail pages.
- Developed secure authentication, wishlist, cart, and multi-product checkout features.
- Integrated mobile banking and Cash on Delivery (COD) payment methods.
- Designed an admin panel with product CRUD operations, order management, and revenue tracking.
- Designed RESTful APIs using React.js, Node.js, Express.js, and MongoDB.

Book-Talk — Real-Time Book Discussion Platform

[Live Demo](#) — [Client Repo](#) — [Server Repo](#)

- Built a single-page application (SPA) with book listing, detail pages, and public discussion access.
- Implemented nested comments using recursion and enabled real-time reply notifications with Socket.IO.
- Designed persistent read/unread notifications that appear after login and redirect users to the related comment.

- Implemented role-based access, allowing users to comment and receive notifications, visitors to view content, and admins to manage data via backend tools.
- Built using React.js, Node.js, Express.js, TypeScript, Socket.IO, Tailwind CSS, PostgreSQL

Vehicle Rental System – RESTful Backend API

[GitHub Repository](#)

- Developed a scalable backend API with JWT authentication and role-based access control.
- Implemented vehicle CRUD operations, secure bookings, auto-expiration, and validation.
- Built using Node.js, Express.js, TypeScript, and PostgreSQL.

EDUCATION

B.Sc. Engg. in Computer Science and Engineering
Gopalganj Science and Technology University
CGPA: 3.56 out of 4 — **Rank:** 5th

Jan 2020 – Jun 2025

CERTIFICATIONS

Data Analysis with Python — EDGE Project, Bangladesh Computer Council (ICT Division)

LANGUAGES

Bangla (Native), English (Professional Working Proficiency)
